EDUCATION

SRM Institute of Science and Technology, Chennai BTECH in Computer Science and Engineering (CGPA: 9.22)	2022–2026
Marigold Public School, Delhi Class XII (CBSE)	2021
Delhi Public School, Faridabad Class X (CBSE)	2019

TECHNICAL SKILLS

Programming: Python, C++, C, SQL
Data Science: Pandas, NumPy, Scikit-Learn, TensorFlow, Keras
Visualization: Matplotlib, Seaborn, Power BI
Tools: PostgreSQL, Git, Docker, Jupyter Notebook, Excel

PROFESSIONAL EXPERIENCE

Data Science Intern — Zidio Technologies	Aug 2024–Oct 2024(Bengaluru)
- Developed CNN model with 98.7% accuracy on MNIST (60,000+ images) using TensorFlow. - Improved precision by 15% via hyperparameter tuning with grid search. - Reduced analysis time 30% via Matplotlib dashboards for cross-functional reviews.	
Data Analytics Intern — MedTourEasy	Jul 2024–Aug 2024 (New Delhi)
- Analyzed 50,000+ chemical records using SQL + Python, identifying 3 trends driving 20% revenue. - Automated ETL flows with Python, reducing processing time by 40%. - Visualized 15+ chemical pricing relationships via Seaborn heatmaps.	
Full Stack Developer Intern — Suvidha Foundation	May 2024–June 2024(Mumbai)
- Developed full-stack platform for 500+ daily transactions with Node.js and PostgreSQL. - Built JWT auth system with 99.9% uptime; reduced breaches by 65%. - Indexed SQL queries to cut page load from 4.2s to 1.8s.	

PROJECTS

Oral Cancer Detection using Machine Learning [Link]	Oct 2024–Jan 2025
- Built a CNN + UNet model using Kaggle's oral cancer dataset to classify histopathology images with high precision. - Designed a Flask-based web interface to upload real-time images and detect cancerous regions. - Generated synthetic images using DCGAN and validated model robustness by comparing performance on real vs. synthetic data.	
Credit Risk Assessment System [Link]	Feb 2025–Apr 2025
- Trained Random Forest model on Kaggle credit dataset to predict creditworthiness and loan eligibility. - Developed Flask web app allowing users to assess loan risk, calculate tax, and get voice-assisted financial guidance. - Integrated CSV/PDF export, dark/light mode toggle, and pie-chart-based risk visualization for enhanced UX.	

CERTIFICATIONS

- IBM Data Science — [\[Link\]](#)
- Intel Unnati Industrial Training — [\[Link\]](#)
- Stanford Machine learning — [\[Link\]](#)
- NPTEL Machine Learning — [\[Link\]](#)
- Alteryx Micro Credential — [\[Link\]](#)

LEADERSHIP & ACTIVITIES

- Summer Intern** — Citizens Foundation **Jun 2024**
Led livelihood initiative impacting 150+ people; enhanced communication and project management skills.
